PROGRAM OVERVIEW

The Automotive Collision Repair diploma program emphasizes either major automotive collision repair or automotive painting and refinishing depending on the specialization area a student chooses to complete. Graduates will be qualified as major collision repair technicians or painting and refinishing technicians.

Program length is thirty-seven (37) to forty (40) credit hours.

Automotive Collision Repair Assistant I

This certificate program covers work safety, hand and power tools, basic component replacement, automotive welding techniques, and mechanical and electrical systems.

Program length is twelve (12) credit hours.

Automotive Collision Repair Assistant II

An advanced certificate option which covers collision repair tools and equipment, hydraulic systems, damage analysis and estimations, frame straightening, and conventional/uni-body structural panel repairs and replacement.

Program length is fifteen (15) credit hours.

Automotive Refinishing Assistant I

This certificate program covers work safety, hand and power tools, basic component repair and replacement, and trim accessories and glass replacements.

Program length is thirteen (13) credit hours.

Automotive Refinishing Assistant II

An advanced certificate option which covers surface preparation, paint identification, spray gun equipment, spray gun techniques, blending, and tinting and matching of colors

Program length is ten (10) credit hours.
