Columbus Technical College
928 Manchester Expressway
Columbus, GA 31904

Dear President Todd:

Thank you for submitting the 2020-2021 Business Continuity Plan (BCP) for your College. Your BCP has been approved without need for revisions. We appreciate the hard work and dedication you and your staff have shown.

If you have questions or need further information concerning applicable requirements, please contact me at (404) 679-1666 or lbeck@tcsg.edu.

Sincerely,

A handwritten signature in blue ink that reads "Lisa Anne Beck".

Lisa Anne Beck
Emergency Manager

(Please forward a copy to your College Business Continuity Coordinator, Tommy Wilson for College distribution.)

COLUMBUS TECHNICAL COLLEGE

Business Continuity Plan FY 2020-2021

Business Continuity Plan Columbus Technical College 2020 - 2021

Overview:

The Business Continuity Plan (BCP) supports the State Board of the Technical College System of Georgia (TCSG) Policy II. D. "Emergency Preparedness, Health, Safety and Security" assertion which states, "The Technical College System of Georgia (TCSG) and each of its associated technical colleges and work units are committed to healthy, safe and secure workplaces and/or educational settings for all employees, students, volunteers, visitors, vendors and contractors. Each technical college or work unit shall develop, review and submit, at least annually to the System Office, those plans and procedures which are essential to respond to matters of natural and man-made hazards; public health; occupational and environmental safety as well as security. These plans and procedures shall be established with the goals of mitigating risk to individuals and physical resources as well as of maintaining compliance with national, state and local regulations."

The intent of the Business Continuity Plan is to guide response and recovery from a major emergency and where appropriate, to be linked or combined with emergency operations procedures. This BCP has been prepared through a collaborative process, with a thorough examination of critical mission functions, a systematic hazard vulnerability assessment, and comprehensive development of strategies for each critical mission function recognized to be potentially at risk during emergency. This BCP is exercised and reviewed annually as a part of the evaluative and planning processes.

Columbus Technical College did experience **one (1)** business continuity incident during the 2019 -2020 year. in accordance with Governor Brian Kemp's Executive Order 03.26.20.02, Pertaining to the COVID-19 Pandemic, the Columbus Technical College campus has been closed to the public and students since March 13, 2020 and employees since March 24, 2020 to protect the health and safety of all concerned. Students and faculty are continuing classes in an online environment. In order to avoid any interruption in service to students or the public, non-faculty employees are continuing to work remotely. Spring break will be the week of March 30, 2020 -April 3, 2020 as originally scheduled, and online classes will resume on April 6, 2020 and continue until further notice. In the event of a weather related incident the college's first alert Emergency notification system "Everbridge" will send out notification to students, faculty and staff to include Dr. Lisa Anne Beck, MEd, DC Emergency Manager with TCSG who will be notified and information kept on file at the central office.

Columbus Technical College engages in the following contractual agreements:

Jan-Pro of Columbus
216 10th Street
Columbus, Georgia 31909
Phone: 706-940-0220

Safety Kleen
6580 Hawkinsville Rd.
Macon, Georgia 31210
Phone: 478-788-9398

Columbus Technical College engages in the following training, drills and exercises:

Employee Annual Trainings which are conducted on the anniversary hire date of each employee. These trainings consist of Acceptable Computer & Internet Usage, Blood borne Pathogens, Campus Safety & Security Procedures, Hazardous Materials, and Unlawful Harassment. All training requires a quiz after each section and the employee must have a passing score of 70 or above.

Required Mandatory TCSG Training consists of Cybersecurity, Human Trafficking, Sexual Harassment, and Cybersecurity COVID-19.

The college also engages in Active Shooter Training, Evacuation Emergency Lift Chair Training, Fire and Tornado drills. The protocol for the retention of training records is maintained in the Human Resources Department located at 928 Manchester Expressway, Columbus, Georgia 31904. The contact person is the **Director of HR Henry Gross, 706-649-1883, hgross@columbustech.edu**

The protocol for the annual review of the BCP will be provided to the Presidents Leadership Team (PLT) which consist of Vice Presidents and Executive Directors of all college departments, to review and make any necessary changes/recommendations and provide current employee critical functions contact information up to date.

The protocol for the retention of the BCP is *posted on the college intranet and hard copy located in the Department of Operations, 928 Manchester Expressway, Columbus, Georgia 31904. The contact is Vice President of facilities and operations Tommy Wilson, 706-649-1894, twilson@columbustech.edu.*

Business Continuity Plan Worksheet

President

Appendix D - Business Continuity Plan Worksheet Exemplar

Business Continuity Plan Worksheet

Work Unit/Technical College: Columbus Technical College, President

Date: 4/20/2020

Critical Mission Function: Emergency Communication

Function Description:

The president's communication is made possible via a mobile office. During times of emergency, the president will be the official spokesperson for the college and work closely with the office of Community and College Relations. The "public information" function is vital for business continuity in the case of any emergency involving the College. The Executive Director of Community & College Relations will serve as a liaison between CTC and community first responders and service providers while overseeing communication to the local media, faculty, staff, and students. Communication will be provided via the Everbridge® Emergency Alert System, the CTC website, Facebook, Twitter, E-mailing, and/or phone calls. Of course, depending on the situation and if technology is unavailable, some adjustments may have to be made.

Production Location: Columbus Technical College, 928 Manchester Expressway, Columbus, Georgia 31904. Phone: 706-649-1800

Process Manager: Martha Ann Todd, President
Email: mtodd@columbustech.edu
Phone: 706-649-1392 (office), 706-977-8015 (cell)

Backup Personnel: Cheryl Myers, Executive Director of College & Community Relations, President's Leadership Team members as needed
Email: cmyers@columbustech.edu
Phone: 706-649-1290 (office), 706-681-8383 (cell)

Recovery Details:

Recovery Strategy Overview: Constant communication with backup personnel, community organization and relay messages to the public on a regular basis based on fact, not speculation.

3-5-day recovery – Process manager will be in contact with appropriate staff on a daily basis ensuring all are on task assignment ensuring a smooth transition during the unforeseen event.

Maximum Allowable Downtime (MAD): 24 hours

MAD Rationale/Justification: Official communication in an emergency must begin IMMEDIATELY to avoid panic, rumors, and possible fall-out/legal issues later.

Can process be suspended? Yes

Can process be degraded? Yes

Work-around procedures in place? Yes, Disaster recovery plan.

Work-around procedures tested? Yes, in accordance with Governor Brian Kemp's Executive Order 03.26.20.02, Pertaining to the COVID-19 Pandemic, the Columbus Technical College campus has been closed to the public and students since March 13, 2020 and employees since March 24, 2020 to protect the health and safety of all concerned. Students and faculty are continuing classes in an online environment. In order to avoid any interruption in service to students or the public, non-faculty employees are continuing to work remotely. Spring break will be the week of March 30, 2020 -April 3, 2020 as originally scheduled, and online classes will resume on April 6, 2020 and continue until further notice.

Recovery Point Objective

(Relocation): Employees Residence

Hours to Point Objective: Minimum 10 minutes – Maximum 1 hour

Institutional Effectiveness

Appendix D - Business Continuity Plan Worksheet Exemplar

Business Continuity Plan Worksheet

Work Unit/Technical College: Columbus Technical College, Institutional Effectiveness

Date: 4/20/20

Critical Mission Function: Accreditation

Function Description: Ensure that the materials and processes relating to regional accreditation of the College by SACSCOC remains in place. The same is true for program accreditations. Ensure that any business disruption does no permanent harm to the systems used to document the activities related to accreditation. Ensure the archives remain intact, and that electronic systems that are used to record and document activities necessary to maintain accreditations in good standing, if interrupted, are back up and running when regular business processes are back in operation.

Production Location: Carl Patrick Hall, room P - 411 Columbus Technical College, 928 Manchester Expressway, Columbus, GA. 31904. Phone: 706-649-1800

Process Manager: Kevin Peoples, Executive Director, Institutional Effectiveness

Email: Kpeoples@columbustech.edu

Phone: 706-649-1304 (office)

Backup Personnel: Christopher Cunningham, Research Assessment Specialist

Email: ccunningham@columbustech.edu

Phone: 706-641-5684 (office)

Sadekha Behlim, Administrative Assistant

Email: sbehlum@columbustech.edu

Phone: 706-649-1305 (office)

Recovery Details:

Recovery Strategy Overview: Accreditation is a process and usually takes place over time. What need protecting are the documentation and compliance documents related to the awards of accreditation and the ongoing processes that must continue to maintain accreditation. So what are important are the recovery of any network drives that contain relevant information and data, and the availability of the processes to be accessible in a reasonable, but not necessarily short period of time. Accreditation and the rest of the IE processes are dependent on the recovery of all Information Technology systems. Several

days for recovery are not a problem in this case due to the long term nature of this particular function.

3-5-day recovery – Process manager will be in contact with appropriate staff on a daily basis ensuring all are on task assignment ensuring a smooth transition during the unforeseen event.

Maximum Allowable Downtime (MAD): 7-10 days

MAD Rationale/Justification:

Can process be suspended? Yes

Can process be degraded? Yes

Work-around procedures in place? Yes, Disaster Recovery Plan.
